

The inspirational design of the new 105 YACHT perfectly demonstrates all the elements that combine to make the Sunseeker range the most desirable yachts in the world. The distinctive style and planing hull shape guarantee true Sunseeker performance. And the imaginative flair and technological expertise that enabled the building of this remarkable craft are evident in every Sunseeker.

For besides their distinctive and stylish appearance, each Sunseeker combines futuristic innovations in design and production with the use of the most advanced construction techniques and composite materials. New computerised engine management systems provide constant fine-tuning, improving efficiency and performance, while also guarding against malfunction. And with almost all operations kept in-house Sunseeker is not dependent on anyone else for quality control.

It is this design and technological expertise that enables Sunseeker to build boats that are bigger than ever, yet still combine outstanding performance with excellent handling. And whichever Sunseeker you choose, you can be sure it has been designed to perform well in the most challenging ocean conditions.

As well as incorporating the latest engines and propulsion techniques, every Sunseeker is designed to make the best use of space, so providing better accommodation and including more facilities for your enjoyment on your yacht.

It is easy to see why Sunseeker is now firmly established as one of the most prestigious brand names in the world.
